

Net2 tokens

- ▼ Each token is uniquely encoded
- ▼ Proximity cards, keyfobs, watchprox and ISO cards
- ▼ Magstripe cards
- ▼ Keyfobs have a lifetime guarantee
- ▼ Supplied in packs of 10

About - Proximity tokens and magstripe cards for use with the Net2 system. The tokens are supplied in packs of ten. Each token is programmed with an 8 digit unique number. Each token is packaged with the 8 digit number printed on the sleeve.

Installation - To issue a token the user's details are entered using the PC software. The token number is then entered by either presenting the token to the optional desktop reader OR by typing the number printed on the sleeve.

Operation - Once programmed into the software the token is ready for use.
